Ordered Items 2016 ~ 18.500

End user Feedback:

o "Fantastic ! that was easy and quick... did not feel like I bought this from a third party at all"...

o I have been unable to expense ANYTHING and often have to pay out of pocket so the spot buy is a great option

o This feature/product is similar to the current shopping system, so if you understand how that operates this is very simple to work with

Example Purchases
